

# Biological Grease Treatment for Grease Traps

---

## Turning Grease Into H2O

Clearflow grease digesting fluid is a powerful concentrate enzyme, designed to assist in the biological breakdown of fats, oils & grease's in our range of traps & interceptors. Clearflow enzymes were developed to boost grease traps' performance, allowing extra time between servicing and reducing odours.

## Peristaltic Pumps

The use of peristaltic pumps are important to ensure the right amount of enzyme is prescribed into the trap at the right time of day. These pumps are very precise so that correct amount for fluid is discharged. This cannot be carried out manually as you may pour to much or too little for the enzyme to activate.

Biological dosing systems must be connected directly into grease traps & interceptors. This will allow time for the trillions of naturally occurring bacteria contained in the fluid to digest the grease in the trap turning it into harmless Carbon dioxide & H2O. For the best results set the pump timer to activate at night after the kitchen is closed.

---

Product: **Grease / Fat Digesting Enzyme Concentrate**

Enzyme Dosing Kit: **Peristaltic Pump, Connectors & Fluid 5, 10, 20 & 25 Litres**

Quantity: **Refills 5, 10, 20 & 25 Litres Plastic Containers**

Mircroorganisms: **Class 1 Saprophytic Bacteria**

Use: **Grease Traps & Interceptors**

Peristaltic Pump: **Battery or Mains Operated**

Fluid Odour: **Lemon Scented**

Safety Data: **Non Hazardous**

---

## Easy Installation

Clearflow grease digesting fluid is a powerful concentrate enzyme, designed to assist in the biological breakdown of fats, oils & grease's in our range of traps & interceptors. Clearflow enzymes were developed to boost grease traps' performance, allowing extra time between servicing and reducing odours.

### Step 1:

Fix Pump To the Wall

### Step 2:

Drill 5mm Hole in waste pipe

### Step 3:

Connect pipe bracket & tube

### Step 4:

Set clock and timer

# Dosing Kit 1 (includes 5 Litres of Fluid)

## Specification Sheet

### Fats, Oils & Digestion Fluid

Specially formulated biological product designed for the maintenance of drain lines, pipes and grease traps serving the catering and food manufacturing industry. It is also designed for use in sewers and pumping wells.

Contains selected surfactants that aid in the emulsification of grease, making it more available to the microorganisms to digest. The product contains other specific ingredients designed to stabilise the product, to allow problem-free pumping in automatic dispensers and to maximise the bio-degradation of grease.

Power: **Battery or Mains Operated**  
Application: **Compatible with Filtra-Trap & Grease Catcher 30 to 85 Litres**  
Pump: **IP Rated fully programmable digital peristaltic fluid pump**  
Parts: **Complete Kit includes Tubing & Pipes**

Supply: **30 Days**  
Volume: **5L concentrated grease digesting fluid**  
Installation: **On Wall**

# Dosing Kit 2 (includes 10 Litres of Fluid)

## Specification Sheet

### Fats, Oils & Digestion Fluid

Specially formulated biological product designed for the maintenance of drain lines, pipes and grease traps serving the catering and food manufacturing industry. It is also designed for use in sewers and pumping wells.

Contains selected surfactants that aid in the emulsification of grease, making it more available to the microorganisms to digest. The product contains other specific ingredients designed to stabilise the product, to allow problem-free pumping in automatic dispensers and to maximise the biodegradation of grease.

Power: **Battery or Mains Operated**  
Application: **Compatible with Filtra-Trap & Grease Catcher 120 to 250 Litres**  
Pump: **IP Rated fully programmable digital peristaltic fluid pump**  
Parts: **Complete Kit includes Tubing & Pipes**

Supply: **60 Days**  
Volume: **10L concentrated grease digesting fluid**  
Installation: **On Wall**

# Dosing Kit 3 (includes 20 Litres of Fluid)

## Specification Sheet

### Fats, Oils & Digestion Fluid

Specially formulated biological product designed for the maintenance of drain lines, pipes and grease traps serving the catering and food manufacturing industry. It is also designed for use in sewers and pumping wells.

Contains selected surfactants that aid in the emulsification of grease, making it more available to the microorganisms to digest. The product contains other specific ingredients designed to stabilise the product, to allow problem-free pumping in automatic dispensers and to maximise the bio-degradation of grease.

Power: **Battery or Mains Operated**  
Application: **Compatible with Jumbo & GT Grease Traps 150 to 300 Litres Units**  
Pump: **IP Rated fully programmable digital peristaltic fluid pump**  
Parts: **Complete Kit includes Tubing & Pipes**

Supply: **120 Days**  
Volume: **20L concentrated grease digesting fluid**  
Installation: **On Wall**

# Dosing Kit 4 (includes 25 Litres of Fluid)

## Specification Sheet

### Fats, Oils & Digestion Fluid

Specially formulated biological product designed for the maintenance of drain lines, pipes and grease traps serving the catering and food manufacturing industry. It is also designed for use in sewers and pumping wells.

Contains selected surfactants that aid in the emulsification of grease, making it more available to the microorganisms to digest. The product contains other specific ingredients designed to stabilise the product, to allow problem-free pumping in automatic dispensers and to maximise the bio-degradation of grease.

Power: **Battery or Mains Operated**  
Application: **Compatible with Jumbo & GS Interceptors 600 to 1000 Litres Units**  
Pump: **IP Rated fully programmable digital peristaltic fluid pump**  
Parts: **Complete Kit includes Tubing & Pipes**

Supply: **150 Days**  
Volume: **25L concentrated grease digesting fluid**  
Installation: **On Wall**

# Enzyme Refills

## Products

---

**We have 4 options for refills**

**5 Litres of Grease Trap, Grease Digesting Fluid**

**10 Litres of Grease Trap, Grease Digesting Fluid**

**20 Litres of Grease Trap, Grease Digesting Fluid**

**25 Litres of Grease Trap, Grease Digesting Fluid**
